

Opti-Care Balancer

Nutrient-Rich, Multi-Purpose Balancer with a Low Starch, Non-Heating Formulation

Main Ingredients

Soya bean meal, Wheat feed, Soya bean hulls, Soya beans toasted, Sunflower meal, Wheat, Molasses, Alfalfa, Whey powder, Soya bean oil.

Key Features

- 20% protein, low-starch, oat-free feed with elevated minerals and vitamins.
- Low feed rate provides vital amino acids, minerals and vitamins while controlling energy supply.
- Extra energy can be supplied by adding in oats or a reduced quantity of a suitable Gain feed.
- Useful dietary addition when feeding less than recommended quantities of a suitable Gain feed.
- Excellent for broodmares to meet mineral and vitamin requirements at all stages.
- Ideal for foals, weanlings and yearlings not requiring further condition.
- Ideal for over-topped youngstock.
- Balancing ratios by weight (Opti-Care:Oats):- 1:2=13% Protein. 1:1=15% Protein.
- Low starch levels result in lower glycemic responses to feed and thereby decrease possible negative effects of insulin and growth hormone spikes during growth.
- Low starch levels provide nutritional support for horses and ponies prone to laminitis.
- Low starch and oat free composition will help support a positive attitude
- Soya bean meal provides excellent quality protein for skeletal development and lactation.
- Milk whey powder also provides an additional source of amino acids.
- Concentrated levels of minerals including calcium, phosphorous, salt and magnesium.
- Bioplex protected trace elements including Copper, Zinc and Manganese maximise availability.
- Selplex® Organic selenium helps to maintain additional antioxidant support.
- Fortified with high levels of Vitamin A, D3, K and a full range of B vitamins.
- Provox natural plant antioxidants support vitamin E utilisation.
- Yea-Sacc® live yeast helps promote fibre digestion, nutrient absorption and good gut function.

Instructions for Use

Complementary feed for horses and ponies as a supplement to forage and water. Maximum feeding rate 0.4kg/100kg bodyweight/day. Concentrated source of minerals, vitamins and protein for a low feeding rate. Feeding 100g/100kg bodyweight/day provides a sound diet base for adult horses and ponies.

Feeding Guidelines

		Foal 3-6 Months	Young Stock	Mare Pregnant	Mare Lactating	Mare Barren	Adult Leisure
GAIN	Thoroughbred (kg)	0.25 - 0.50	0.50 - 0.75	1.0	1.25	0.50	0.50
Opti-Care Balancer	g/100kg bodyweight/day	250	200	200	250	100	100

Analytical Constituents

DE MJ/kg	Protein %	Oil %	Fibre %	Vit. A iu/kg	Vit. D ₃ iu/kg	Vit. E iu/kg	Cu mg/kg	Se mg/kg
12.0	20.0	5.0	10.0	60,000	8,000	1,200	170	1.30
