

Blend of Super Fibres and Oils for Unbeatable Topline and Condition

## Main Ingredients

Oats toasted rolled, Maize flakes, Barley flakes, Wheat flakes, Soya bean meal, Alfalfa, Pea flakes, Soya bean toasted flakes, Sunflower meal, Molasses, Soya bean oil.

## Key Features

- Highly palatable coarse feed helps to achieve maximum intakes and encourage fussy eaters.
- High energy blend of oils, fibre and cereals helps to support growth with condition.
- Elevated oil level contributes to energy supply and helps to maintain a healthy coat.
- Good digestible fibre level contributes to energy supply and helps to maintain a healthy coat.
- High quality cooked cereals guarantee high digestibility.
- Full fat soya supplies essential amino acids including Lysine and Methionine to aid growth and development and helps to sustain 'top-line'.
- Fortified fully with minerals and micro-nutrients for optimum bone development.
- Bioplex® trace elements including Copper, Zinc and Manganese guarantee maximise availability.
- Extra vitamins including vitamin E help to support the immune, respiratory and muscular systems.
- Yea-Sacc® live yeast improves fibre digestion, nutrient uptake and hindgut health.
- Elevated Vitamin E levels help support immunity and muscle function.
- Provox natural plant antioxidants supports vitamin E utilisation.
- Selplex® organic selenium helps to maintain additional antioxidant support.
- Suitable for competition horses.
- Contains Mycotoxin binders.

## Instructions for Use

Feed to young stock and horses preparing for sale or the show-ring as a supplement to forage and water. Feed to a maximum rate of 1.5kg/100kg bodyweight per day. Overtopped youngstock should be fed Gain Opti-Care Balancer or Gain Stud-Care 32 Balancer.

## Feeding Guidelines

Horse's Bodyweight	200kg	300kg	400kg	500kg	600kg
GAIN Prep 'N' Condition kg/head/day	2.0 - 3.0	3.0 - 4.5	4.0 - 6.0	5.0 - 7.5	6.0 - 9.0

## Analytical Constituents

DE MJ/kg	Protein %	Oil %	Fibre %	Vit. A iu/kg	Vit. D <sub>3</sub> iu/kg	Vit. E iu/kg	Cu mg/kg	Se mg/kg
13.0	14.0	6.5	8.5	15,000	2,000	400	50	0.4
