

# Stud Mix

High Specification Formulation Suitable For All Breeding Stock

## Key Features

- Highly palatable, energy-dense muesli ideal to support optimum condition and skeletal development.
- Provides concentrated nutrition when foal growth restricts intake in late pregnancy.
- Full fat soya supplies essential amino acids including lysine and methionine to aid growth and development of the foal and to support maximum milk yields.
- Yea-Sacc® live yeast helps support fibre digestion, nutrient absorption and optimum gut function.
- Bioplex® trace elements including Copper, Zinc and Manganese maximise availability.
- Sel-Plex® organic selenium helps to maintain additional antioxidant support.
- High levels of Vitamin E support the reproductive system.
- ProviOX natural plant antioxidants support Vitamin E utilisation.
- Suitable for breeding mares at all stages, growing young stock and breeding stallions.
